 Yellow Bell Peppers  Tomatoes  Red Bell Peppers

 Celery  Cucumbers  Hand Wash Only

 Green Bell Peppers

### Technical Data

Width	10 Inches
Depth	10 Inches
Height	20 Inches
Cutting Area Width	4 1/4 Inches
Cutting Area Depth	4 1/4 Inches
Dice Size	3/8 Inch
Features	Hand Wash Only NSF Listed
Installation Type	Countertop

Technical Data	
Material	Cast Aluminum
Power Type	Manual
Type	Dicers

## Notes & Details

Save time and labor at your commercial establishment with the Garde XL XLDC38 3/8" large vegetable dicer! Incorporating both convenience and efficiency, this extra large rugged dicer allows you to chop and dice a variety of different vegetables for your soups, pastas, salads, and other food prep needs. A 4 1/4" cutting surface decreases the time spent cutting vegetables into smaller pieces before dicing, which expedites the cutting process. An extra wide base allows your employees to place food pans directly underneath the chopper, so when they arrive in the morning, they can quickly cut dozens of products at a time and store them away for later. Then, when the lunch rush hits, you'll be prepared for high-demand orders and won't be wasting valuable time dicing up vegetables by hand.

A short throw handle with superior engineering enhances leverage for smooth, easy cutting in just one stroke. Combined with the razor sharp stainless steel blades, this user-friendly design ensures that even your newest employee will have no trouble operating it. And, because the stainless steel is resistant to corrosion, you'll never have to worry about blade contact with tomato juice and other acidic substances. The sturdy cast aluminum construction holds up to the wear and tear of tough, daily use, while also providing years of reliable service. To ensure stability on your countertop, the four rubber feet keep the unit from sliding during operation. For easy maintenance, the blade assembly and push block come apart quickly when it's time for cleaning.
