

Cubicle Personal Safety Partition

Our patent pending cubicle PPE safety partition complies with CDC guidance for close proximity spaces. Cubicle Personal Safety Partitions are helping schools, offices, and other areas of close contact across the nation reopen safer & cleaner.

Shield Against Airborne Contaminants

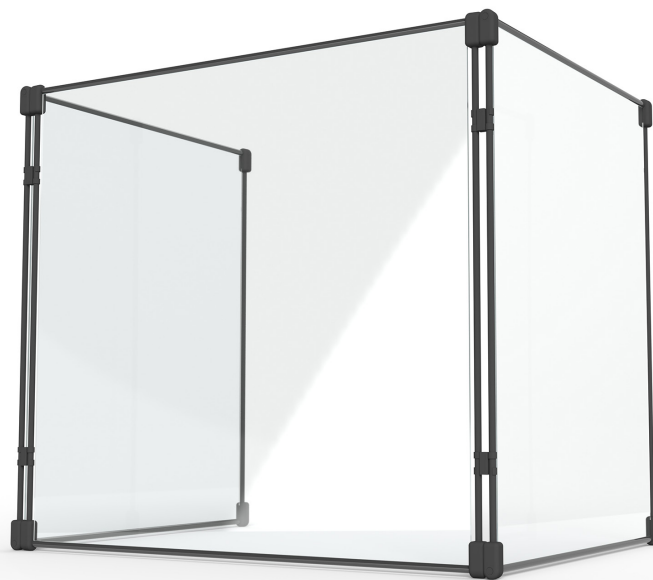

Our cubicle configuration provides 3 sides of protection to prevent the spread of airborne contaminants and viruses, improving safety and comfort in your close-proximity spaces.

Minimally Intrusive Design

Our clear PVC design and minimal frame allows full visibility through the partition without being a distraction or focal point, keeping focus on the class or task at hand.

Quick & Easy to Assemble & Store

Our patent pending design requires no tools for installation and is easily assembled in minutes. Our clips that hold each side together allow you to fold the partition for easy storage.

22 x 20 x 16 Cubicle Partition Shown

PVC Screen

Our antibacterial PVC material is easy to sanitize between uses, and will never crack or splinter like plexiglass shields.

Proprietary Connectors

Our proprietary connectors hold the frame together to create a 3-sided personal safety system for protection.

Fiberglass Frame

Our frame is made of fiberglass rods that won't take a set if bent & our panels are held together with clips for easy storing.

Standard Size:

Our patent pending Cubicle Personal Safety Partition was designed specifically to fit the standard 24 x 18 school desk to create full coverage and provide protection. Custom partition sizing is available upon special request to fit your specific application needs.
