

Tabletop Personal Safety Partitions

Our patent pending portable tabletop PPE safety partition complies with CDC guidance for close proximity spaces. Tabletop personal safety partitions are helping schools, offices, and other areas of close contact across the nation reopen safer & cleaner.

Shield Against Airborne Contaminants

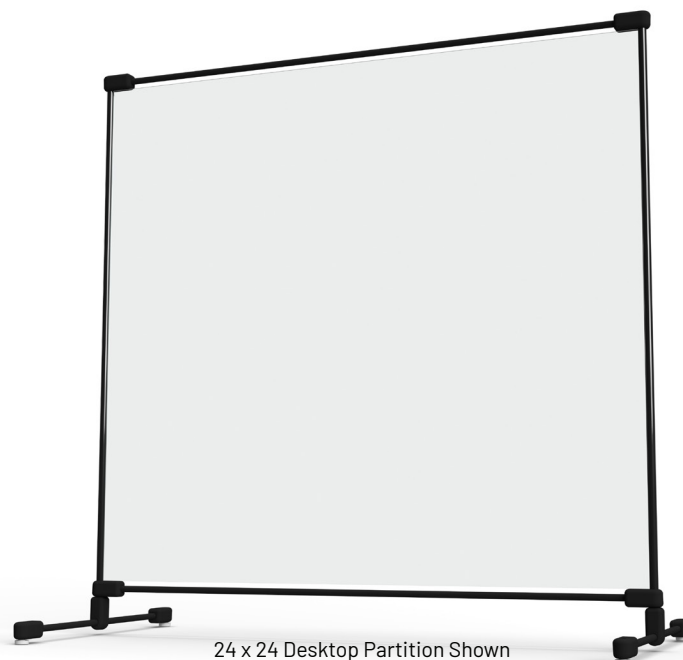

Goff's Personal Safety Partitions help prevent the spread of airborne contaminants and viruses, improving safety and comfort in your close-proximity spaces.

Minimally Intrusive Design

Our clear PVC design and minimal frame allows full visibility through the partition without being a distraction or focal point, keeping focus on the class or task at hand.

Quick & Easy to Assemble

Desktop partitions require no tools for installation, and are easily assembled in minutes out of the box. Our materials resist deterioration to stand the test of time.

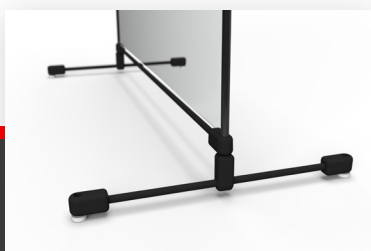

24 x 24 Desktop Partition Shown

PVC Screen

Our antibacterial PVC material is easy to sanitize between uses, and will never crack or splinter like plexiglass shields.

Rubberized Feet

Our rubberized feet grip your table or desk, keeping the tabletop personal safety partition in place if bumped.

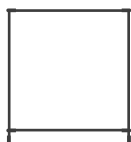

Fiberglass Frame

Our fiberglass rods won't take a set if bent, providing durable flexibility without the risk of damage to the frame.

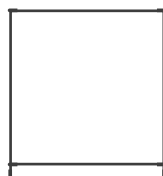

Standard Sizes:

Our patent pending Tabletop Personal Safety Partitions are available and stocked in these versatile common sizes. Additionally, custom partition sizing is available on special request with alternative lead time and pricing to fit your spaces.
