

GET DOUBLE BARREL PUMP-OUT WET PERFORMANCE

TWIN MOTORS GIVE YOU COMPLETE CONTROL OVER WET CLEANING

**HEPA
VACUUM**

DV-802WD - State of the Art

The DV-802WD industrial vacuum is designed for heavy-duty plant applications that demand high performance, portability and high volume liquid transfer, all in a convenient 115V model. This model features industrial strength motors, HEPA filtering, stainless steel construction, and two high powered motors can be run independently, delivering power to pick up a variety of wet debris. However, this unit really shines in large volume environments where it boasts a 82" water lift that picks up liquids fast, and a 79 GPM integrated pump out system that eliminates the need for transfer tanks.

FEATURES

- Compact design
- Stainless steel construction
- Two independent motors
- HEPA filtering
- Integrated pump out feature

SPECIFICATIONS	DV-802WD
Motor Power	2.4 HP (total)
Input Power	17 amps, 115V, 50/60 Hz AC
