

# BIG TIME PERFORMANCE

## SootVac™- JR

Mounted on a sturdy dolly and weighing only 20 pounds, lifting and portability is a breeze with the SootVac, JR. Handling fine soot dust is no problem with a washable, high-efficiency cartridge filter protected by a 10 micron filter bag ensuring soot stays in the collection tank. Designed for gas-fired or light deposits, an inner plastic bag makes collection, sealing and disposal simple. Included accessories make the SootVac-JR a perfect solution for cleanup around the boiler room.

### FEATURES

- 8' collapsible hose
- Disposable plastic collection bag
- 10 micron filter protector
- Washable, high-efficiency, 0.3 micron cartridge filter
- Stainless steel tank and carry handle
- Includes dolly
