

Griptite™ 2 Service Trays

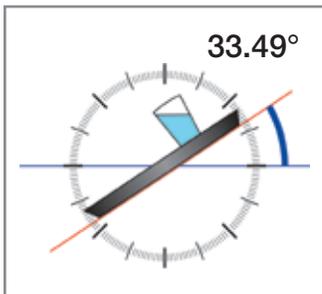

Reliable & Long-Lasting

We built the Griptite 2 Tray from the ground up with one thing in mind—unmatched quality. The patent-pending, non-skid surface is designed to grip drinkware and plates better. The surface prevents spills and looks new for years. Griptite 2 Trays can lower drop costs and reduce potential falls. Like a bumper, the side coating reduces wear and tear from daily use. We take our trays through rigorous testing to ensure they excel in both function and durability.

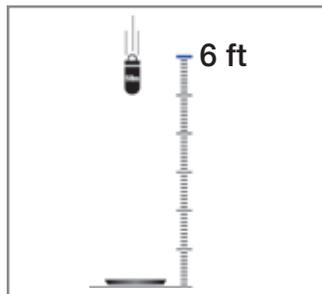

Benefits

Less Slip & Tip

Holds a full glass at a steeper angle than ever before

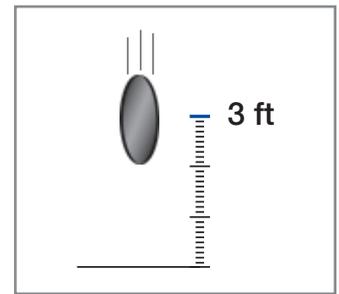

Durable

Impact and drop tested for superior performance

Aesthetics

Resistant to staining to keep its good looks longer

Long Lasting

Field-tested to stand up to the high demands of years of serving
