

Hall Identification Board

Hall Identification Board

Identify room or hall numbers and provide space for announcements or information. Room numbers help the wayfinding process in universities, conference rooms, centers, and any kind of entrance area. The board features five standard felt colors over tack board and a header with space for the room number. The header is gray and will allocate up to 6 alphanumeric characters in a standard Helvetica font. Multiple color choices will add the ability to match theme colors with the interior of the building. The ability to develop a color scheme will provide consistency within your facility. A contemporary and stylish feel is added with the sleek aluminum frame.
