Intelligent Heated Display Cabinet with Humidity

Models: IHDCH-28, -45

Hatco's Intelligent Heated Display Cabinet with Humidity is the perfect way to showcase your pizzas and more. Regulating air temperature while at the same time balancing the humidity level provides the best environment for food products. With 360° viewing, and LED lighting, your food is guaranteed to get all the attention.

IHDCH-28 with accessory pizza arms and shelf

IHDCH-45 with accessory shelves and optional front French doors

Standard features

- The IHDCH-28, our NEW half-size cabinet, has an option for a full door in the front, allowing self-service for customers
- Air flow pattern is designed to maintain consistent cabinet temperature without drying out food
- Air flow system enables the cabinet to recover temperature rapidly after opening and closing a door
- LCD touchscreen display on back of unit controls temperature, humidity and up to eight timers for each food location
- USB port in back of unit makes it easy to establish standard, pre-programmed settings for consistency and reliability
- Adjustable arms or shelves (IHDCH-28 only) can move up and down the back supports
  - IHDCH-28 unit can hold up to three shelves, four pizza arms, or a combination (see chart below)
  - IHDCH-45 unit can hold up to six pizza arms, up to three shelves, or a combination of both (see chart below)
- Pizza Arms
  - Will hold a maximum 22" (558 mm) pizza pan and can hold up to 8.5 lbs. (365 kg)
- Energy efficient LED lighting illuminates food display
- Lighted Power On/Off (I/O) switch
- Stainless steel construction and stainless steel finish

On all Intelligent Heated Display Cabinet Models customers must purchase arms and shelves separately to their own specifications.

Water Supply Tube

Water Inlet Fitting

Overflow Drain Pipe

A water strainer, water filter and 15 feet of plastic tubing is included with the unit to install on the water supply line before it enters the unit.

WATER QUALITY REQUIREMENTS
Water supply in excess of 3.0 grains of hardness per gallon (GPG) (.75 grains of hardness per liter) must be treated and softened before being used. Water containing over 3.0 GPG (.75 GPL) will decrease the efficiency and reduce the operating life of the unit.
Note: Product failure caused by liming or sediment buildup is not covered under warranty.
