Notes & Details

This Lancaster Table & Seating mahogany wood seat for metal frame seating is a direct replacement for the seat on your existing Lancaster Table & Seating ladder back, cross back, Boomerang, or bistro chair or barstool. This seat can be used to replace a damaged or worn-out seat. It is also a great option for easily changing the aesthetics of any establishment!

This seat fits both metal frame standard height chairs as well as metal frame barstools for versatility. The sleek mahogany wood finish adds a contemporary flair to any dining or bar area and is sure to blend well with any existing decor. Your guests will appreciate the exceptional comfort that this seat provides, and the plywood core adds extra stability. Best of all, this seat is durable and easy to clean, making it an ideal addition to any restaurant, bar, or event venue!
