Notes & Details

Choose an eye-catching and reliable addition to your establishment with this Lancaster Table & Seating thermo-formed medium-density fiberboard table. The top of this table is crafted with a thermo-formed PVC cover. The cover is seamless, making it easy to clean and sure to stand up to long-term wear and tear. It is resistant to heat, stains, and scratching, making it perfect for use in a busy restaurant, hotel, or bar. The table top is also designed with a 1" medium-density fiberboard core. This core provides a sturdy foundation and adds durability and strength to the unit. It is made with resin and wood particle fused together. This design allows it to withstand more weight than plywood tables and prevents the table top from warping.

This Lancaster Table & Seating table will give your guests a comfortable place to enjoy their meal, drink, or conversation! The rectangular design and 24" x 30" size are perfect for comfortably seating 2 guests. For added convenience, this unit also features a durable black melamine backer for table bases to attach to. It sports a 22" x 22" table base while the 25" base column is standard height and made from resilient cast iron. The table top sports a black wood finish that complements any setting while the rounded edges and corners provide added safety for children. This table is meant for indoor use only. It is the perfect addition to your commercial establishment.

Kit Includes:

- Table top
- Table base column
- Table base spider
- Table base plate
- Hardware pack
