- 1" diameter, 18-gauge tubing with chrome finish
- Helps wait staff avoid a busy and hectic crowd
- Easy clamp-on mounting, fits bars 7/8" - 5" thick

Technical Data

Width	6 Inches
Depth	11 7/8 Inches
Height	16 7/8 Inches
Color	Silver
Material	Chrome-Plated Metal
Type	Server Stations

Notes & Details

Keep the drinks flowing and your bar running efficiently with this chrome waitress stall / service rail from Lancaster Table & Seating! While every operator wants to see their bar bustling and full of patrons enjoying their favorite drinks, a crowded bar area can also make it difficult for your wait staff to get orders out to seated customers. This bar rail solves that problem by sectioning off an area that your staff can use specifically to pick up drink and food orders.

Installing this bar rail is easy, simply screw the clamps on underneath the bar to tighten it. It can easily mount on any bar that's at least 7/8" thick, up to a maximum of 5" thick. Since it clamps on, this also gives you the freedom to move it later without damaging the bar surface, if you need to reconfigure your layout. 14 gauge, 1" diameter tubing gives the rail the durability needed to stand up to even high-volume establishments, while an attractive chrome-plated finish helps it to fit in with virtually any aesthetic.
