Notes & Details

Rural countryside meets urban city styling with this Lancaster Table & Seating 30" x 72" standard height wood vintage butcher block table with 8 Boomerang chairs. Coming with an attractive table top, compatible dining height base, and 8 matching Boomerang brand chairs, this set provides you with everything you need to set up and complete the look of your dining area. It's sure to add a rustic element with contemporary flair to your restaurant, bistro, or bar!

Composed of 3/4" solid strips, the wood is affixed to 1/2" plywood for increased structural durability and stability. A 2" thick solid wood border surrounds the perimeter of the table, giving the appearance of a thicker table while maintaining a lightweight composition. It is specially designed to provide you with a dining option that will look fantastic and deliver long-lasting performance at an unbeatable price.

This table's eye-catching table top is accented and supported by the included table base. Two 25" high black powder-coated steel columns and rods extend the table top to dining height and are connected to the table top via black, powder-coated 18" spider attachments. At the base of the table, two 22" x 30" black, powder-coated cross base plates help to prevent the table from wobbling, ensuring stability and balance.

Complementing the rustic table are eight Lancaster Table & Seating Boomerang dining height chairs with vintage wood seats and backs. Each chair has a contemporary black steel frame along with a comfortable vintage wood seat and back. The Boomerang design is both sturdy and stylish, instilling a modern look in any location. Plus, since the chairs' backs are contoured for a customer's back, they will provide unmatched comfort while maintaining a distinct appearance. The chairs are designed with integrated glides to protect your floors from scuffing. At the same time, the black powder coat on the chairs ensures longevity even through everyday wear and tear, resisting stains, scratches, and smudges. This reliable and modern design ensures you'll be using these dining height chairs in your pub or restaurant for years to come.
