

#349MCM3030S

Project: _____

A close-up, low-angle shot looking up at the underside of a wooden table. The image highlights the black metal frame, which consists of a rectangular base with four legs. The legs are thick and cylindrical, with a slight taper towards the bottom. The frame is constructed from black-painted metal, showing some texture and slight wear. The wooden top of the table is visible at the top of the frame, showing a natural wood grain and a smooth finish. The lighting is soft, casting gentle shadows that emphasize the geometric forms of the metal structure.

- **Easy assembly; hardware included**
- **Made of durable black powder-coated steel**
- **Non-slip rubber floor glides prevent scratches and are adjustable for easy leveling**
- **Wide, trestle base helps to prevent the table from wobbling**
- **Stylish mid-century design adds a timeless look to any setting**

Notes & Details

Add a unique and modern twist to your restaurant with this Lancaster Table & Seating Mid-Century 30" x 30" black standard height table base. Made of durable powder-coated steel, this base is built to withstand daily use. Its stylish black finish offers a clean, timeless look to enhance any setting.

Compatible with 30" x 30" square or 30" round tables, this table base can be paired with any style top for versatility you'll appreciate. Its wide trestle design prevents wobbling while each foot includes a rubber glide to avoid damage to your floors. Better yet, the glides are adjustable for easy leveling at any time. Simply loosen the glide to increase height, or tighten the glide to lower the height. For a mid-century look your guests will love paired with durability you can trust, choose this mid-century black table base for your restaurant, cafe, or bar.
