Notes & Details

Perfect for both indoor and outdoor use, this 30" x 72" heavy-duty plastic table from Lancaster Table & Seating provides exceptional versatility at a price that's hard to beat. Thanks to a high impact polyethylene construction, this table will not crack, chip, or peel as a result of routine use and is stronger and more durable than wood. The table's surface measures 6' long and is easy to clean.

This table is best utilized at any number of catered events in virtually any setting, such as dining rooms, kitchens, offices, conference rooms, restaurants, banquet halls, and more. A sturdy powder-coated steel frame boasts 19-gauge steel legs along with a 1 3/4" thick granite-colored top. Perfect for large gatherings or parties, a 600 lb. capacity allows for items of nearly any size or weight to be placed atop the surface. When not in use, this table folds up easily, and a lightweight design ensures it can be carried to an appropriate storage space.
