Notes & Details

Keep your umbrellas securely upright and in place with this Lancaster Table & Seating 50 lb. black round steel umbrella base. This umbrella base is constructed of durable steel that ensures your umbrella won't blow away or tip over when it's windy outside. It's suitable for holding umbrellas with poles 1 1/2" in diameter. Plus, its 50 lb. weight allows it to be sturdy yet light weight enough to relocate if you need to use it elsewhere. Because of its weight, this umbrella base needs to be lifted with caution and preferably with the help of a second person to ensure employee safety.

This umbrella base's black color and classic round shape are sure to add an upscale touch to your outdoor seating. Its steel construction is not easily breakable, so you can use it with confidence in a commercial setting. Plus, its compact design maximizes leg and foot space! The post can also be removed from the base for convenient storage. Reach for this Lancaster Table & Seating umbrella base to upgrade your outdoor seating experience!
