### **Notes & Details**

Enhance your outdoor dining area with this Lancaster Table & Seating Virelli outdoor side chair! Crafted from natural Brazilian cherry wood with mortise and tenon joints, this chair is built to provide long-lasting durability. This chair's water-based matte varnish both enhances the look of the wood and protects against harmful UV rays, moisture absorption, and rot, ensuring it will hold up in the elements. Better yet, as the chair naturally ages, it develops a soft, sun-faded patina over time, providing a unique, silvery gray finish that's sure to dazzle your guests.

Great for indoor or outdoor use, this chair is an excellent choice for any business looking to expand their seating options. The backrest features hand-woven 100% polypropylene nautical rope, offering both support and an elegant appearance that will elevate any patio or resort space. This standard height chair boasts a 350 lb. weight capacity. It ships fully assembled for immediate use, saving you time and hassle.
