Notes & Details

Enhance the efficiency and functionality of your outdoor waste management system with the Lancaster Table & Seating black flat lid for 55 gallon cans. Designed with an easy-to-use round opening and small footprint, this flat lid is a practical addition to your outdoor trash cans that keeps trash inside the can without restricting access. The convenient wide opening allows for effortless one-handed waste disposal, promoting a clean and tidy environment for your patrons. Its sleek black color not only presents a professional appearance but also complements the LT&S steel outdoor cans, creating a cohesive waste management system that is both functional and visually appealing.

Constructed with a heavy-duty design, this flat lid is built to withstand outdoor elements, making it an ideal choice for parks, municipalities, and schools. For a more secure lid attachment, pair this lid with a security cable (sold separately) to ensure the lid stays on when there is weather, wind, vandalism, or theft. Whether you're looking to upgrade your current waste disposal system or simply need a reliable solution for outdoor use, this Lancaster Table & Seating flat lid is the perfect choice to keep your outdoor spaces clean and organized. With its durable construction and user-friendly design, this flat lid is a practical investment for any commercial setting requiring efficient waste management solutions.
