CARPET EXTRACTOR

SEE THE BENEFITS

of the 6-Gallon Carpet Extractor

Warranty: Lifetime warranty on body, 2-years on vacuum motors, 2-years on 100 PSI pump, 1-year on all electrical components and 90-days on tools and accessories.

- Powerful vacuum motors offer up to 120" water lift for efficient solution recovery that results in better extraction and faster carpet drying.
- High performance motors stay cool with an innovative air intake design that uses the vacuum's own cooling fans to pull cool, outside air over the motors, reducing motor temperature and preventing overheating.
- Heated units include an in-line heater that lets you extract with 150°F solution!
- 6-gallon solution and recovery tanks allow for quick and easy fill and dump disposal, reducing downtime.
- Waist-high controls prevent bending and stooping to operate the machine. The controls are recessed in the machine and stay protected during use, in transit or in storage.
- 10" non-skid, non-marking wheels make stair climbing easy and do not scuff floors.
- Roto-molded polyethylene tanks withstand the toughest working environments and resist dents, chips and cracks.
- Includes 25-foot long safety power cord(s).

MODELS

Carpet Extractors dispense water, either hot or cold, into a carpet at various rates called PSI (pounds per square inch). The higher the PSI, the more water output into carpet. The solution hose dispenses the water and the vacuum hose sucks the water out of the carpet.
