Lavex Pro 20" Heavy-Duty High Speed Burnisher with Floating Handle and Burnishing Floor Pads - 1,500 RPM

Item #978LPS20BRNPROKIT

Technical Data

Power Cord Length	50 Feet
Amps	15 Amps
Hertz	60 Hz
Voltage	120 Volts
Horsepower	1 1/2 hp
Pad Size	20 Inches
Plug Type	NEMA 5-15P
Power Type	Corded Electric

Features

- 20" pad size increases productivity by producing a large burnishing area
- Features a durable, heavy-duty cast iron chassis with a steel shroud
- Easy and comfortable to maneuver with the adjustable floating handle
- Includes 5" non-marking ball bearing casters for portability
- Comes with 5 burnishing floor pads

Certifications

CSA, Canada

5-15P

Technical Data

RPM	1500 RPM
Type	Floor Burnishers
Wheel Size	5 Inches

Notes & Details

Keeping your floors clean and presentable at all times is made easier with the help of this Lavex Pro burnisher. Whether you're cleaning a healthcare facility, airport, or retail establishment, this unit has the power to get the job done. It operates at a high speed to quickly and easily burnish hard floors, resulting in a shiny, polished finish. The 20" pad size increases productivity by producing a large burnishing area.

This model comes with (5) 20" burnishing pads that can be used for buffing or even limited spray cleaning. These pads work on VCT, linoleum, and sheet vinyl surfaces, and they boast a distinct aqua color for easy identification. These pads feature high-quality nylon and polyester fibers in a non-woven web combined with a durable resin system that permeates the entire pad for optimum performance. They offer a reliable, uniform construction for less machine wobble and vibration, helping to reduce fatigue. Plus, they are washable, reusable, and reversible. The perforations in the middle of each pad allow for use with or without the center hole.

This burnisher provides ultimate durability thanks to the heavy-duty aluminum chassis with a steel shroud. It is easy and comfortable to maneuver using the adjustable 13 gauge steel handle. Simple transport is facilitated by the 5" non-marking ball bearing casters. This unit provides the ease-of-use necessary for operators to burnish large areas with minimal fatigue. As an added bonus, a 50' power cord allows for an exceptionally large work area for operation. This unit requires a 120V electrical connection for operation.

Kit Includes:

- 20" high speed burnisher
- (5) 20" burnishing floor pads
