

# Beacon360 Blaze

Meet the Beacon360 Blaze. The most versatile and durable temporary light on the market. It surpasses military grade drop test requirements by double, see for yourself at [www.LindEquipment.net/beacon360blaze](http://www.LindEquipment.net/beacon360blaze). This compact and portable unit provides 14,300 lumens of bright, white **light for up to 50' in all directions** at full power.

What makes the Blaze unique is its versatility. Use it as task lighting on a tripod to illuminate an entire room. Clamp it to scaffolding on skyscrapers. Place it on a metal beam in an attic. Even daisy-chain it as part of the LED Jobsite System for large area lighting. Whatever your project lighting needs are, the Beacon360 Blaze will meet it.

**LE360LED**  
Light head and yoke

**LE360LED-TR**  
Heavy duty 4-8' adjustable tripod

**LE360LED-MAG**  
Heavy duty single magnet

**LE360LED-CLAMP**  
Adjustable steel clamp

**LE360LED-FS**  
Durable metal floor stand

# Beacon360 Blaze

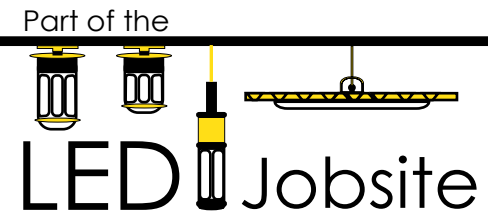

## Part of the LED Jobsite

When replacing bulb-based highbays or stringlights on the jobsite, the Beacon360 Blaze will:

- ✓ Reduce your electricity demand and CO<sub>2</sub> emissions by 80%.
- ✓ Last for over 5 years of 24/7 use, transforming your lighting equipment to an asset rather than a disposable.
- ✓ Withstand weather and impact (rugged, durable construction, IP65 weatherproof).
- ✓ Be installed through a simple plug and play system, reducing installation time by up to 95%.
- ✓ Be daisy-chained together on fewer circuits, and their triple-outlet daisy-chain allows for complex patterns of lights to be created.
- ✓ Eliminate hazardous waste sent to landfills from temporary lighting.
- ✓ Require no maintenance.

The versatile Beacon360 Blaze can be mounted to virtually any surface. A tripod, magnet mount, clamp and floor stand, but also a hook for hanging from the ceiling.

The LED Jobsite's plug and play option comes with a **50' daisy-chain cable** which includes a triple-tap connector and a 5-15P plug. Light coverage for up to 50' feet in diameter to 5 foot candles at normal ceiling heights.

SPECIFICATIONS		
VOLTAGE	90-227V	
WATTAGE	100W (0.83 amps at 120V)	
LIGHT TEMPERATURE	4500K (bright, white light • no blue tint)	
LUMENS	14,300 • 7,150 at half power
