

HEAVY-DUTY

LE5005 FLUORESCENT STRINGLIGHT

Fluorescent stringlights are ideal for a range of industrial uses including aircraft servicing, tunnels, tank cleaning, and temporary area lighting in military/construction tents.

Feed-through receptacle at the end of the fixture permits the linking of multiple units together, and each unit includes two hooks for horizontal suspension. The casing is moisture and dust resistant and has a full-length reflector that directs light onto the work area.

The LE5005 comes in regular and vapour-proof versions.
