

SkyScraper

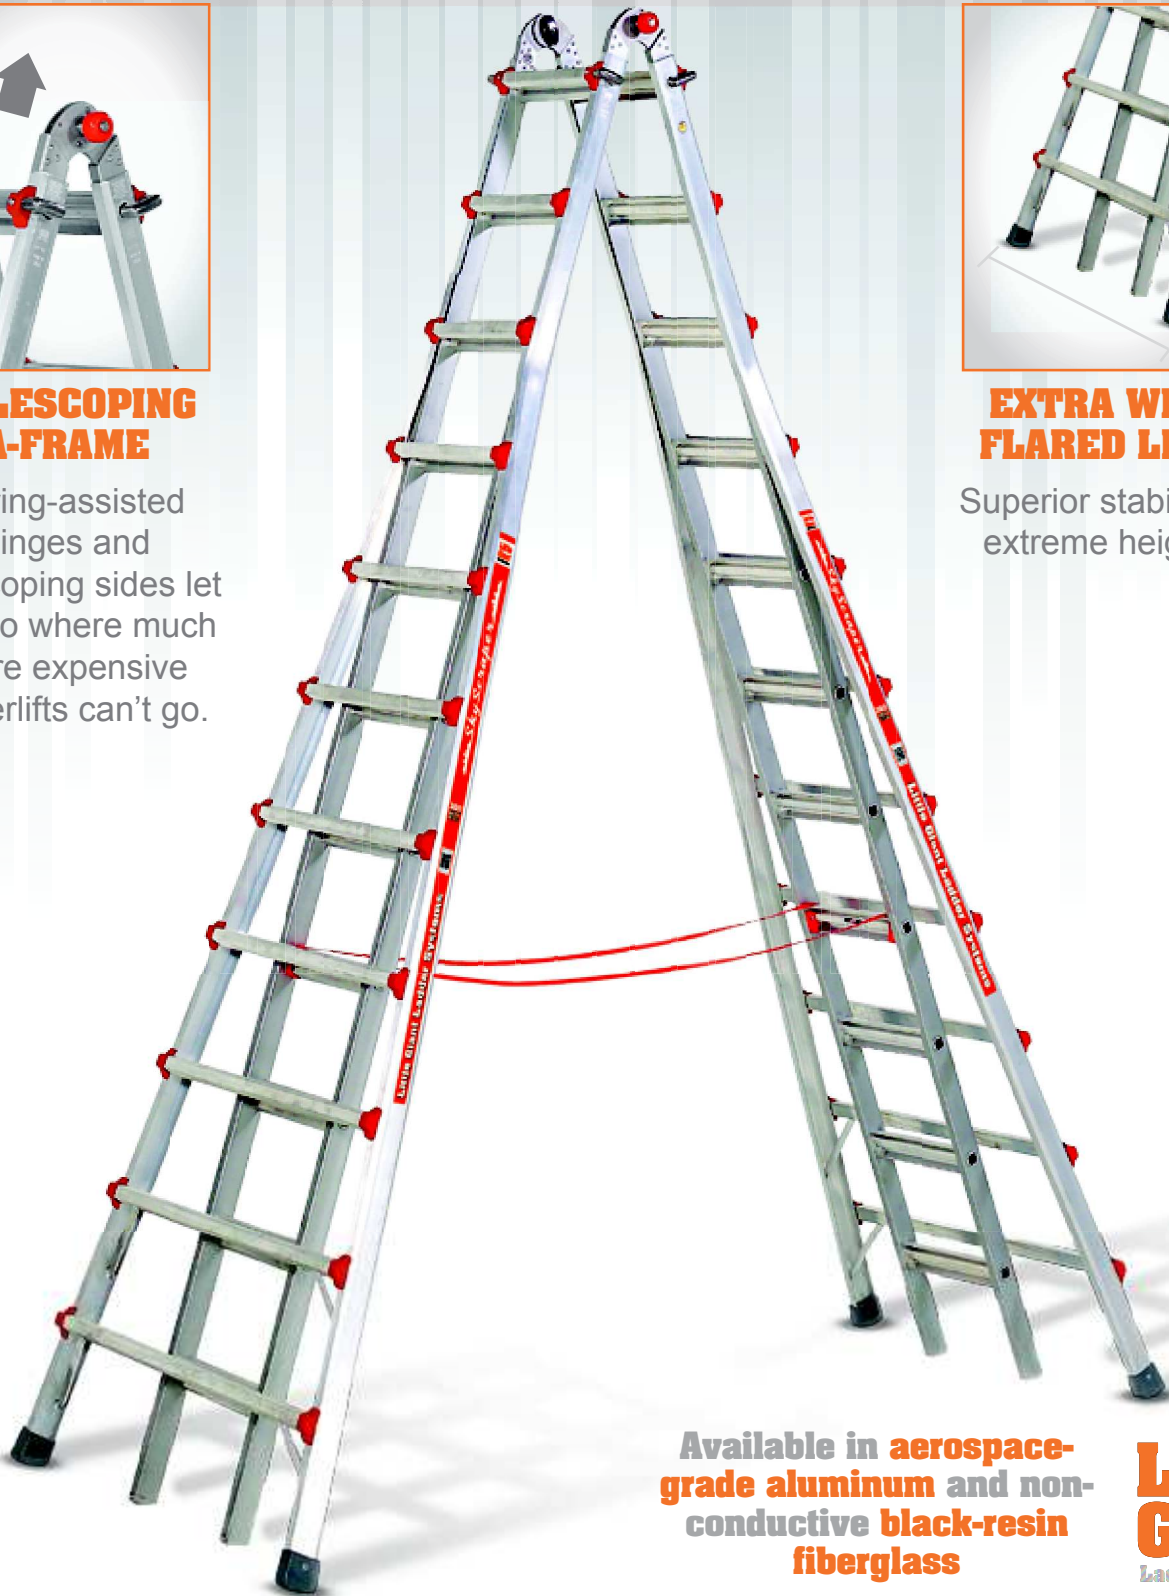

TELESCOPING A-FRAME

Spring-assisted hinges and telescoping sides let you go where much more expensive powerlifts can't go.

EXTRA WIDE FLARED LEGS

Superior stability at extreme heights

Available in **aerospace-grade aluminum** and non-conductive **black-resin fiberglass**

**Little
Giant**
Ladder Systems

CLIMB ON

Safe and easy to use on stairs, stadium seating, stages, and other uneven surfaces.

Save time and use it safely as a true two-person stepladder.

Goes places that other tall A-frame stepladders and power lifts cannot go.

* A 5'6" person with a 12" vertical reach.

ALUMINUM 5-YEAR WARRANTY

TYPE IA 300 LBS
