

MOBILE PIZZA OVEN

PZ-24-MB, PZ-36-MB & PZ-48-MB

Shown with front and end shelves

This is the Crown Verity Outdoor Mobile Pizza Oven. Now chefs can create exquisite pizzas in any outdoor environment.

The advanced pilot system along with each 12,500 BTUH burner, allow the oven to heat up quickly and stay lit in outdoor climates. The mobile pizza oven uses a special Volcanic Cooking Stone. This stone can absorb and maintain high heats and its smooth texture and low porosity prevents sticking.

The oven was designed to incorporate the three combinations of heat sources required to cook the perfect pizza: Direct, Convection and Radiant.

Each 12" cooking tile is independently temperature controlled, allowing the user to bake different food items or pizza types at the same time.

Keep peace of mind with Crown Verity's unsurpassed warranty including 1-year parts and labour, a 90-day replacement on cooking stones and 10-years replacement on the burners.

The Mobile Pizza Oven model is available as either liquid propane (LP) or natural gas (NG).
