## Notes & Details

Dispense water with efficiency and style using this Narvon 4 GPH countertop water dispenser with hot, chilled, and ambient water options. This water dispenser boasts a durable ABS plastic construction. Its tall dispensing area accepts most large water bottles. This unit is able to dispense hot, chilled, and ambient water, making it extremely versatile. It allows you to adjust your water temperatures, serving cold water from 41-53.6 degrees Fahrenheit, ambient water from 60.8-89.6 degrees Fahrenheit, and hot water up to 179.6 degrees Fahrenheit. It dispenses 4 gallons of chilled water per hour, while its hot water tank holds up to 1 liter of water.

With convenient push connect fittings, this unit is easy to install. It is great for small offices, and it has a stylish design that fits into any space. It features easy-to-use LED buttons and an alarm to alert you to operating malfunctions. To prevent your unit from overheating, this dispenser includes a forced ventilation grill, while its integrated drip tray catches any spills to help keep your space clean and dry. This dispenser boasts an energy-saving function and uses R-600a refrigerant. It requires a 120V electrical connection for use. Effortlessly serve a variety of water options to staff and guests with this Narvon water dispenser!
