Notes & Details

Quench your guests' thirsts at your bar, convenience store, or family-owned restaurant by utilizing this Narvon SM2 double 3 gallon pourover granita / slushy / frozen beverage dispenser! Great for frozen favorites like smoothies, slushies, or granitas and refrigerated drinks such as iced tea, lemonade, or juice, this versatile dispenser is sure to maximize the beverage sales at any establishment by showing off the lucrative specialties you have to offer!

The (2) 3 gallon bowls promote excellent product visibility thanks to their built-in LED lighting, which illuminates the bowls to boost impulse purchases at your business. Thanks to its compact size, the dispenser can be placed on virtually any countertop surface, remaining in plain sight of guests. The temperature of the bowls is easily adjustable through digital controls, which can be altered to accommodate frozen or refrigerated drinks. This means that you can ensure your guests are enjoying their purchases at an ideal consistency. A bowl slush thickness control located at the back of the unit will give you great control over consistency as well!

This unit features a drip-free valve with a large pull handle for effortless operation. It also boasts a durable stainless steel chassis with a removable drip tray for increased longevity and efficient upkeep. Plus, with the dispenser needing to be cleaned daily, disassembly has never been easier! The bowl and its components can be easily removed by adjusting the thumbscrews, and no tools are necessary.
