

Nitron Gas Module, 120V

4.7" x 14.6" x 8.3"
(11.9cm x 37.1cm x 21.1cm)

- Compact, space-saving design produces its own unlimited supply of gas for the Nitron dispenser, eliminating the need for high-pressure tanks and nitrogen generators
- The Gas Module features integrated multi-stage FDA-compliant filters to remove impurities and moisture from the air
- Compatible with all Nitron Cold Draft dispensers, the modular unit can be installed under or next to the machine or beneath the counter in a cabinet. Its modular design works with both new and existing Nitron dispensers already in service
- Plugs into a 120V outlet for easy set-up and includes 8-feet of gas line with 1/4" female flare fitting (washer included) for quick connection to the Nitron dispenser
- System design allows for quick access to internal components for ease of service, and requires only 1 PM per year to replace the internal filters, readily performed with just a few hand tools
