

#274UGWDRSH

Approval: _____ Date: _____

Type	Mechanical Parts
------	------------------

- **Direct replacement for original part**
- **For use with the Noble Last Call heavy-duty upright glass washer**
- **Helps brushes turn properly**
- **Compatible with Last Call heavy-duty electric glass washers**

Keep your Last Call heavy-duty electric glass washers working with the Noble Warewashing drive shaft! This drive shaft is a direct replacement for the one that came with your glass washer, and it transfers the motor's power to the brushes to make them spin. If your brushes aren't working correctly, check to make sure your drive shaft isn't broken, and replace it if needed.
