- Hand wash only. Not dishwasher safe.

Description

Sani-Tuff® cutting boards are made from a high-density rubber compound that won't crack, splinter, swell, or absorb liquids or odors, and lasts far longer than cutting boards made from wood or plastic. Sani-Tuff® cutting boards are tested and certified by NSF International. The rubber compound used for these cutting boards has a high degree of resiliency preserving knife edges longer. Sani-Tuff cutting boards can be resurfaced by sanding the board as needed. Manufactured with Microstop™ anti-microbial rubber compound.

Need a cutting board in a custom size? We can custom cut multiple thicknesses and sizes to fit your needs as well as cutouts and gravy grooves, [request a quote here](#).
