Enjoy your Alto-Shaam® Heated Shelf Merchandiser!

Halo Heat® Technology

Alto-Shaam heated shelf merchandisers utilize precise and one-of-a-kind Halo Heat® technology to keep food at the highest quality, heating it from both the top and bottom.

Keep hot-and-ready meals in a display attractive to customers with this customizable merchandiser. Make the appliance your own with LED-lighted shelves, customized branding, backlit interchangeable graphics, pricing rails, and window sides. Display a variety of grab and go products such as rotisserie chickens, sandwiches, and pizza on the merchandiser's evenly-heated shelves.

Extend Your Manufacturer's Warranty

Register

Register your Alto-Shaam appliance online. Registering your appliance ensures prompt service in the event of a warranty claim.

Your personal information will not be shared with any other company.

The Meaning of Signal Words

This manual contains signal words where needed. These signal words must be obeyed to reduce the risk of death, personal injury, or equipment damage. The meaning of these signal words is explained below.

**DANGER**

Danger indicates a hazardous situation which, if not avoided, will result in serious injury or death.

**WARNING**

Warning indicates a hazardous situation which, if not avoided, could result in serious injury or death.

**CAUTION**

Caution indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

NOTICE

Notice indicates a situation which, if not avoided, could result in property damage.

NOTE: Note indicates additional information that is important to a concept or procedure.

Appliance Description and Intended Use

Halo Heat Technology®

Alto-Shaam Halo Heat® provides precise all-around warming, allowing for food to be kept for longer hold times at the highest quality. This gentle heat surrounds the food evenly in the merchandiser via a low-density thermal cable—eliminating the need for fans, added humidity, or hot components.

Nomenclature

HSM-24/3S/T means Heated Shelf Merchandiser, 24-inch width, three-shelf, and top heat.

Configurations

Heated Shelf Merchandisers are available in configurations based on the width of the appliance and the number of shelves.

The 24-inch units are available in 3- and 5-shelf configurations.

The 36-inch units are available in 2-, 3-, and 5-shelf configurations.

The 48-inch units are available in a 5-shelf configuration.

Intended use

Heated Shelf Merchandisers are intended to hold food only. Any other use is prohibited. This appliance is intended to be used for commercial applications, for example in kitchens of restaurants, canteens, hospitals and in commercial enterprises such as bakeries, butcheries, etc., but not for continuous mass production of food.

Residual risks

This merchandiser is manufactured using ISO-certified processes. The merchandiser is designed with maximum safety in mind; however, there are residual risks to operators of this merchandiser. Residual risks include exposure to heat and exposure to hot food products.

Possible misuse

Misuse of this merchandiser includes loading the merchandiser with anything other than a food product. Misuse also includes holding any food product that contains alcohol or other flammable substance.

Environmental conditions

Before use the appliance must acclimate to room temperature in the environment it is installed: 24 hours is recommended.

Ambient temperature range: 60°F to 110°F (16°C to 43°C).

Relative humidity range: less than 95% non-condensation.

Atmospheric pressure range: 15 to 31 in. mercury (50kPa to 106kPa).

Safety Precautions

Before you begin

Read and understand all instructions in this manual.

Electrical precautions

Obey these electrical precautions when using the appliance:

- Connect the appliance to a properly grounded outlet. Do not use the appliance if it is not properly grounded. Consult an electrician if there is any doubt that the outlet used is properly grounded.
 - Keep the cord away from hot surfaces.
 - Do not attempt to service the appliance or its cord and plug.
 - Do not operate the appliance if it has a damaged cord or plug.
 - Do not immerse the cord or plug in water.
 - Do not let the cord hang over the edge of a table or counter.
 - Do not use an extension cord.
-

Usage precautions

Obey these usage precautions when using the appliance:

- Only use this appliance for its intended use of holding hot food.
 - Do not cover or block any of the openings of this appliance.
 - Do not cover shelves or any other part of this appliance with metal foil.
 - Do not use this appliance near water such as a sink, in a wet location, near a swimming pool, or similar locations.
 - For units with casters: Unplug unit and allow to cool before moving to a new location.
-

Maintenance precautions

Obey these maintenance precautions when maintaining the appliance:

- Obey precautions in the manual, on tags, and on labels attached to or shipped with the appliance.
- Only clean the appliance when it is disconnected from the power source.
- Do not store the appliance outdoors.
- Do not clean the appliance with metal scouring pads.
- Do not use corrosive chemicals when cleaning the appliance.
- Do not use a hose, water jet, or steam cleaner to clean the appliance.
- Do not use the appliance for storage.

Continued from previous page

Operator training

All personnel using the appliance must have proper operator training. Before using the appliance:

- Read and understand the operating instructions contained in all the documentation delivered with the appliance.
- Know the location and proper use of all controls.
- Keep this manual and all supplied instructions, diagrams, schematics, parts lists, notices, and labels with the appliance if the appliance is sold or moved to another location.
- Contact Alto-Shaam for additional training if needed.

Operator qualifications

Only trained personnel with the following operator qualifications are permitted to use the appliance:

- Have received proper instruction on how to use the appliance.
- Have demonstrated their ability with commercial kitchens and commercial appliances.

The appliance must not be used by:

- Persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision concerning use of the appliance by person responsible for their safety.
- People impaired by drugs or alcohol.

- Children should be supervised to ensure that they do not play with the appliance.
- Children shall neither clean nor maintain the appliance.

Condition of appliance

Only use the appliance when:

- All controls operate correctly.
- The appliance is installed correctly.
- The appliance is clean.
- The appliance labels are legible.

Servicing the appliance

- Only trained personnel are permitted to service or repair the appliance. Repairs that are not performed by an authorized service partner or trained technician will void the warranty and relieve Alto-Shaam of all liability.
- To prevent serious injury, death or property damage, have the appliance inspected and serviced at least every twelve (12) months by an authorized service partner or trained technician.
- Contact Alto-Shaam for the authorized service partner in your area.

Continued from previous page

Personal Protective Equipment (PPE)

Wear the following Personal Protective Equipment (PPE) while cleaning the appliance:

- Protective gloves
- Protective clothing
- Eye protection
- Face protection

Use of restraining devices

A restraining device (tether) must be installed to any appliance that is hard-wired and mounted on casters. The tether must:

- Be secured to the building's structure.
- Limit the movement of the appliance so that no stress is transmitted to the electrical conduit.

A connection point for the tether is located on the back of the appliance.

A tether is not supplied by nor available from the manufacturer.

This page is intentionally left blank.

How to Receive the Appliance

Responsible parties

When an Alto-Shaam® preferred carrier is used, shipping damage is a matter between Alto-Shaam and the carrier. In such cases, contact Alto-Shaam customer service.

When an Alto-Shaam non-preferred carrier is used, shipping damage is a matter between the carrier and the consignee. In such cases, the carrier is assumed to be responsible for the safe delivery of the merchandise, unless negligence can be established on part of the shipper.

Receive the appliance

When receiving the appliance, do the following.

Step	Action
1.	Inspect the equipment while it is still in the truck or immediately after it is moved to the receiving area. Do not wait until after the equipment is moved to a storage area.
2.	Inspect and count all merchandise received. Do not sign a delivery receipt or a freight bill until you have done so.
3.	Note all damage to packaging and to the equipment on the carrier's receipt.
4.	Request the driver sign the delivery receipt. If the driver refuses to sign, make a note of this refusal on the delivery receipt.
5.	Write the following on the delivery receipt if the driver refuses to allow an inspection: Driver refuses to allow inspection of containers for visible damage.
6.	Contact the carrier immediately upon finding damage, and request an inspection. Follow the carrier's policies and procedures.

Alto-Shaam policy

It is the policy of Alto-Shaam to assist customers in collecting claims that have been properly filed and actively pursued. Alto-Shaam cannot, however, file damage claims, assume the responsibilities for damage claims, or accept deductions in payment for damage claims.

How to Unpack the Merchandiser

Before you begin

Make sure you have:

- An appropriate lifting device and enough personnel to safely move and position the weight of the merchandiser.

Model	Weight	Model	Weight
HSM-24/3S/T	250 lb (113 kg)	HSM-36/3S/T	311 lb (141 kg)
HSM-24/5S/T	406 lb (184 kg)	HSM-36/5S/T	496 lb (225 kg)
HSM-36/2S/T	224 lb (102 kg)	HSM-48/5S/T	563 lb (255 kg)

- Cutting tools to remove the packaging and hand tools to remove the bolts.

Unpacking

To unpack the merchandiser, do the following.

Step	Action
------	--------

- | | |
|----|--|
| 1. | Remove the box by cutting the top off. Then, remove the staples holding the box to the pallet, cut the sides into manageable pieces and remove the pieces. Save all packing materials for inspection by the carrier. |
|----|--|

NOTE: Examine the appliance for damage. If the appliance has been damaged, do not use the appliance until it has been inspected by an authorized service provider. Contact your carrier or Alto-Shaam® customer service.

HDC-TS-015318

Continued on next page

Continued from previous page

2. **Position** the lifting device under the merchandiser from the front. Position the forks of the lifting device near the legs/casters. The pallet may be oversized, in such cases, raise the pallet and block it just enough so that the lifting device can fit underneath the pallet.

3. **Remove** the brackets ① holding the merchandiser to the pallet. **Discard** brackets.
4. **Lift** the merchandiser from the pallet. **Move** it away from the pallet and set it on the floor. **Remove** the lifting device from the merchandiser.
5. **Remove** the skirting from the shrink wrap if applicable. **Remove** the shrink wrap and the shelf support framework from the merchandiser.
6. **Retrieve** the manual from the interior of the merchandiser. **Refer** to it for installation and operation information.

Result

The merchandiser is now unpacked.

How to Install the Merchandiser

Before you begin

Make sure you have:

- An appropriate lifting device, and enough personnel, to safely move and position the weight of the merchandiser
- Basic Hand Tools

Requirements

- The merchandiser must be installed on a level surface.
- Do not install the merchandiser near a cold air source such as, a freezer, air conditioner, or an area where outside air can affect its performance.
- The merchandiser must not be installed in any area where it may be affected by steam, grease, dripping water, high temperature, or any other severely adverse conditions.

Electrical connection

WARNING: Appliances without a cord provided by the factory must be equipped with a cord of sufficient length to permit the appliance to be moved for cleaning.

Always use the correct AWG wire size based on the electrical requirements for the appliance.

WARNING: To prevent serious injury, death, or property damage:

All electrical connections must be made by a qualified and trained service technician in accordance with applicable electrical codes.

This appliance must be adequately grounded in accordance with local electrical codes or, in the absence of local codes, with the current edition of the National Electrical Code ANSI/NFPA No 70. In Canada, all electrical connections are to be made in accordance with CSA C22 1, Canadian Electrical Code Part 1 or local codes.

CE-approved appliances include an equipotential-bonding terminal marked with the equipotential symbol. Provisions for earthing are to be made in accordance with IEC:2010 60335-1 section 27 or local codes.

WARNING: Electric shock hazard.

Power source must match voltage identified on appliance rating tag. The rating tag provides essential technical information required for any appliance installation, maintenance or repairs. Do not remove, damage or modify the rating tag.

Continued on next page

Continued from previous page

Regarding international standard merchandisers:

If the unit is not equipped with flexible cord and plug, an all-pole country approved disconnection device which has a contact separation of at least 3mm in all poles must be incorporated in the fixed wiring for disconnection. When using a cord without a plug, the green/yellow conductor shall be connected to the terminal which is marked with the ground symbol. If a plug is used, the socket outlet must be easily accessible. If the power cord needs replacement, use a similar one obtained from the distributor.

Hard-wired models:

Hard-wired models must be equipped with a country-certified, external, all-pole disconnection switch with sufficient contact separation. Hard-wired models that are mounted on casters must have a strain relief device (tether) to prevent strain on the power supply cord. If a power cord is used for the connection of the product, an oil resistant cord like H05RN or H07RN or equivalent must be used.

NOTICE Where local codes and CE regulatory requirements apply, appliances must be connected to an electrical circuit that is protected by an external GFCI outlet.

Restraint Requirements

WARNING: Electric shock hazard
Appliance must be secured to building structure. Failure to observe this precaution may result in severe personal injury and damage to the equipment.

Requirements for restraint:

- Maximum height of casters is 6" (152mm).
- Two of the casters must be of the locking type.
- Strain relief devices (tethers) must be secured to the building structure.

A mounting connector for a restraining device (tether) is located on the back of the appliance. The restraining device (tether) is not supplied by nor is it available from the factory.

Position the merchandiser

To position the merchandiser, do the following.

Step	Action
1.	<p>Make sure that:</p> <ul style="list-style-type: none"> ■ The location where the merchandiser is being installed is rated to support the weight of the merchandiser; ■ The merchandiser is within five feet (1.5 m) of the appropriate electrical outlet; ■ You follow the merchandiser clearance guidelines.
	 <p>The diagram illustrates a side view of a merchandiser unit. A vertical dashed line is drawn to the right of the unit, representing a clearance boundary. A horizontal double-headed arrow between the right edge of the merchandiser and this dashed line is labeled "4" (102mm)", indicating the required clearance.</p>
2.	<p>Move the merchandiser to the installation location and onto the final resting surface. Apply the brakes of the front casters (if applicable).</p>
3.	<p>See topic <i>How to Clean the Merchandiser</i>, and thoroughly clean the merchandiser before continuing.</p>
4.	<p>For merchandisers without plugs, do the following. See topic <i>How to Install the Merchandiser (Without Cord or Plug)</i>.</p> <p>For merchandisers with plugs and cords, do the following. Plug the merchandiser into a properly grounded receptacle.</p>

Connecting power

Continued on next page

Continued from previous page

Install the tether (if required)

5. **Install** a restraining device (tether) between the merchandiser and the building's structure so no stress is transmitted to the electrical connections when the oven moves.

Bonding terminal (if required)

6. Connect the merchandiser at the equipotential-bonding terminal if required.

NOTE: The equipotential-bonding terminal is located at the bottom rear of the oven

Result

The merchandiser is now installed.

How to Install the Merchandiser (Without Cord or Plug)

Before you begin

Make sure you have:

- An appropriate lifting device, and enough personnel, to safely move and position the weight of the merchandiser
- Appropriate cord and plug, minimum oil resistant HO7RN-F. See local codes and regulations
- Screwdriver (Phillips #2)
- Nut driver (1/4-inch)

Requirements

- The merchandiser must be installed on a level surface.
- The merchandiser must not be installed in any area where it may be affected by steam, grease, dripping water, high temperature, or any other severely adverse conditions.

Voltages

For the list of voltages, **See Topic** *How to Install a Merchandiser*.

7. **Connect** the merchandiser at the equipotential-bonding terminal if required.

NOTE: The equipotential-bonding terminal is located at the bottom rear of the oven

Result

The merchandiser is now installed.

How to Install the Skirt on a Floor Model Merchandiser

Background

Merchandisers with casters include three skirt panels that need to be installed after the merchandiser is in position.

Before you begin

Make sure you have basic hand tools.

Procedure

To install the skirt to the floor model merchandiser, do the following.

Step	Action
1.	Remove the screws ①.
2.	Slide the front skirt panel ② into position and secure it with the screws removed in step 1.
3.	Remove the screws ③ from the rear of the merchandiser.
4.	Slide the side skirt ④ into position and secure it with the screws removed in step 3.
5.	Repeat for the other side skirt .

Result

The skirt has been installed.

How to Add a Display Base to an Existing Countertop Merchandiser

Background The optional base adds 8" (203mm) to the overall height of a countertop merchandiser.

Before you begin **Make sure** you have basic hand tools.
Make sure you have an appropriate lifting device for the weight of the appliance. See topic *How to Unpack the Merchandiser* for appliance weights.

Procedure To install a display base to an existing countertop merchandiser, do the following:

Step	Action
1.	Place the merchandiser so that the bottom panel rests on a lifting device or platform set at a height of 12" (305mm).
2.	Unscrew the four legs ①.

Continued on next page

Continued from previous page

3. **Place** the display base frame ② next to the lifting device or platform.
 - If the display base has casters, make sure the brakes are set.
 - If the display base has legs, make sure they are set to a height of at least 4.33" (110mm).

4. **Slide** the merchandiser onto the frame. Make sure all sides align with the frame.
5. **Use four SC-27441 screws ③** to secure the merchandiser to the display base.

6. **Position** the merchandiser where it will be used.

Continued on next page

Continued from previous page

7. **Position** the front skirt panel so the holes in the side flanges ④ line up with the screw holes in the side of the display base. The magnet on the front of the display base holds the panel in place.

8. **Attach** the front panel to the display base with two screws ⑤ on each side.
9. **Slide** the flanges of the two side panels ⑥ into the slots in the front panel. The magnets ⑦ on the side of the display base hold the side panels in place.

Continued on next page

Continued from previous page

10. **Attach** each side panel to the display base with two screws ⑧.

Result

The display base has been installed.

How to Install the Optional Shelf Insert for Magnetic Signage Panels

Background

The optional shelf insert allows magnetic signage panels to be used on the merchandiser shelves. The insert can be removed at any time.

Procedure

To install the shelf insert, do the following.

Step	Action
1.	Open the plastic shelf guard ① slightly.
	
2.	Slide the shelf insert ② down into the shelf guard until it sets firmly in place. Release the shelf guard.
3.	Press along the entire length of the insert to make sure it is fully seated. Make sure that the shelf guard holds the insert tightly in place.
4.	Repeat these steps for every shelf where you want to use magnetic signage panels.

Result

The shelf insert has been installed.

Shelf Capacities

The shelf capacity for a Heated Shelf Merchandiser differs depending on the configurations of the unit. The shelf capacities are as follows.

- **HSM-24/3S/T:** Three (3) 20-7/8" (530mm) width shelves, fifteen (15) sandwiches or six (6) chicken boats with dome cover per shelf.
- **HSM-24/5S/T:** Five (5) 20-7/8" (530mm) width shelves, fifteen (15) sandwiches or six (6) chicken boats with dome cover per shelf.
- **HSM-36/2S/T:** Two (2) 32-7/8" (835mm) width shelves, eight (8) chicken boats with dome cover per shelf.
- **HSM-36/3S/T:** Three (3) 32-7/8" (835mm) width shelves, eight (8) chicken boats with dome cover per shelf.
- **HSM-36/5S/T:** Five (5) 32-7/8" (835mm) width shelves, eight (8) chicken boats with dome cover per shelf.
- **HSM-48/5S/T:** Five (5) 44-7/8" (1140mm) width shelves, twelve (12) chicken boats with dome cover per shelf.

How to Turn On and Turn Off the Merchandiser

Before you begin

The merchandiser must be connected to electric power.

Turning on the merchandiser

To turn on the merchandiser, do the following.

Step	Action
1.	Locate the power switch ① below the top canopy on the left side of the merchandiser. Press the power switch to the ON position.
 HDC-TS-014827	
	The merchandiser is now on.
2.	To turn off the merchandiser, do the following. Locate the power switch ① below the top canopy on the left side of the merchandiser. Press the power switch to the OFF position.

Turning off the merchandiser

2. To turn off the merchandiser, do the following.

Locate the power switch ① below the top canopy on the left side of the merchandiser.

Press the power switch to the OFF position.

Result

The merchandiser is now off.

How to Prepare the Merchandiser for First Use

Background Use this procedure for initial use or before using the merchandiser after taking it out of storage.

Procedure To prepare the merchandiser for first use, do the following.

Step	Action
1.	Remove all packing material from the merchandiser.
2.	Remove and wash detachable items with hot, soapy water. Dry with a clean, damp, lint-free cloth.
3.	Remove visible grease or oil from the merchandiser.
4.	Clean the interior and exterior of the merchandiser with a mild soap and water solution. Apply the solution with a clean, damp cloth. Do not use commercial or household cleaners that contain ammonia. Wipe with a clean, damp cloth to remove all detergent residue. Dry with a clean, lint-free cloth.
5.	Clean the merchandiser glass with glass cleaner or distilled vinegar.
6.	Operate the merchandiser without food for a period of 15 minutes using setting 9 (<i>See topic: How to Operate the Merchandiser</i>) to remove surface oils and any accompanying odor.

Result The merchandiser is now ready for operation.

How to Operate the Merchandiser

Before you begin

- The merchandiser must be connected to electric power.
- Review the following general instructions:
 - Do not allow food or water to contact the shelves.
 - Use hand protection when handling hot items.
 - Place only hot items into the merchandiser.
 - Test your containers/packaging to be sure it performs as required and that it does not scratch the shelves. Do not use metal pans or ceramic dishes.
 - Do not stack the containers/packaging.

Operating the merchandiser

To operate the merchandiser, do the following.

Step	Action
1.	Turn on the merchandiser. See topic <i>How to Turn On and Off the Merchandiser</i> .
2.	Turn the control panel door latch ① with a coin or flathead screwdriver.
 <p style="text-align: right;">HDC-TS-014830</p>	
3.	Pull the door open using the control panel door handle ②
 <p style="text-align: right;">HDC-TS-014834</p>	

Continued on next page

Continued from previous page

4. **Turn** the thermostat knob(s) ③ to 4.5–5 for units with doors or 5–6 for units without doors. **Preheat** the merchandiser. The time required to preheat the merchandiser depends on environmental factors.

Each shelf has a thermostat control numbered from 1 to 10, with 10 being the hottest. When the thermostat is turned clockwise to the determined setting, the indicator light—found above each shelf—illuminates and remains illuminated as long as the shelf is being heated.

5. **Use** a thermometer to make certain all food products are hot and have been cooked thoroughly before loading food into the merchandiser.
6. **Load** pre-packaged hot foods into the merchandiser. Periodically **check** the internal temperature of each food item to ensure maintenance of the proper temperature range.

Result

The merchandiser is now in operation.

This page is intentionally left blank.

How to Clean the Merchandiser

Before you begin

WARNING: Electric shock hazard.
Set the power switch to the OFF position and unplug the merchandiser before cleaning it.

CAUTION: Burn hazard.
Allow the merchandiser and racks to cool before cleaning.

CAUTION: Corrosive materials hazard.
Wear eye protection and hand protection when cleaning.

NOTICE

Using improper cleaning procedures will damage the merchandiser and void the warranty.
Only use spray cleaner when the electric power is completely removed from the merchandiser.
Do not use steel pads, wire brushes, or scrapers when cleaning.

Cleaning procedure

To clean the merchandiser, do the following.

Step	Action
1.	Make sure the merchandiser is turned off and cool. Press the On/Off switch to the OFF (O) position. Disconnect the merchandiser from the power source. Allow the merchandiser to cool.
2.	Remove, cover or wrap , and store food product under refrigeration.
3.	Clean the exterior of the merchandiser with a mild soap and water solution. Apply the solution with a clean, damp cloth. Do not use commercial or household cleaners that contain ammonia. Wipe with a clean, damp cloth to remove all detergent residue. Dry with a clean, lint-free cloth. Clean the exterior of the cabinet with a cleaner recommended for stainless steel surfaces to maintain the protective film coating on any polished stainless steel.
4.	Clean the anodized-aluminum shelves and other interior components with a mild soap and hot water.

Continued on next page

Continued from previous page

5. **Spray** heavily-soiled areas with a water-soluble degreaser and let stand for 10 minutes, then remove the soil with a plastic scouring pad.
6. **Wipe** the interior surfaces with a sanitizing solution after cleaning and rinsing. This solution must be approved for use on food contact surfaces.
7. **Clean** the merchandiser glass with glass cleaner or distilled vinegar.

Always follow appropriate state or local health (hygiene) regulations regarding all applicable cleaning and sanitation requirements for food service equipment.

Result

The merchandiser is now clean.

Warranty

Introduction

Alto-Shaam, Inc. warrants to the original purchaser only, that any original part found to be defective in material or workmanship will be replaced with a new or rebuilt part at Alto-Shaam's option, subject to provisions hereinafter stated.

Warranty Period

The original parts warranty period is as follows:

- For all other original parts, one (1) year from the date of installation of appliance or fifteen (15) months from the shipping date, whichever occurs first.
- The labor warranty period is one (1) year from the date of installation or fifteen (15) months from the shipping date, whichever occurs first.
- Alto-Shaam will bear normal labor charges performed during standard business hours, excluding overtime, holiday rates or any additional fees.
- For the refrigeration compressor, if installed, the warranty period is five (5) years from the date of original installation of the appliance.
- For heating elements on Halo Heat® Cook and Hold ovens, the warranty period is for as long as the original owner owns the oven. This warranty period applies to units sold after 2/1/2009 and excludes holding-only ovens.
- To be valid, a warranty claim must be asserted during the applicable warranty period. This warranty is not transferable.

Exclusions

This warranty does not apply to:

- Calibration.
- Replacement of light bulbs, rubber gaskets, grease filters, air filters, racks, jet plates, and/or the replacement of glass due to damage of any kind.
- Equipment damage caused by accident, shipping, improper installation or alteration.
- Equipment used under conditions of abuse, misuse, carelessness or abnormal conditions, including but not limited to, equipment subjected to harsh or inappropriate chemicals, including but not limited to, compounds containing chloride or quaternary salts, poor water quality, or equipment with missing or altered serial numbers.
- Equipment damage caused by use of any cleaning agents other than those recommended by Alto-Shaam, including but not limited to damage due to chlorine or other harmful chemicals.
- Any losses or damage resulting from malfunction, including loss of food product, revenue, or consequential or incidental damages of any kind.
- Equipment modified in any manner from original model, substitution of parts other than factory authorized parts, unauthorized removal of any parts including legs, or unauthorized addition of any parts.

Continued on next page

WARRANTY

Continued from previous page

- Equipment damage incurred as a direct result of poor water quality*, inadequate maintenance of steam generators and/or surfaces affected by water. Water quality and required maintenance of steam generating equipment is the responsibility of the owner/operator.
 - Equipment damage incurred as a result of not following the required maintenance schedule published in the manuals for the equipment.
-

Conclusion

This warranty is exclusive and is in lieu of all other warranties, express or implied, including the implied warranties of merchantability and fitness for a particular purpose. No person except an officer of Alto-Shaam, Inc. is authorized to modify this warranty or to incur on behalf of Alto-Shaam any other obligation or liability in connection with Alto-Shaam equipment.

**Refer to the product spec sheet for water quality standards.*
