PRODUCT APPLICATION SHEET

HDR4048-25

The heavy-duty BulkPak® 4048 HDR series was designed for rugged applications.

These reusable containers are made of tough, durable high-density polyethylene for long-life performance under the harshest conditions and provides excellent product protection. Bulk containers collapse when empty for reduced return transportation costs and warehouse space savings. During storage and shipping these bulk bins stack securely atop each other. Large access door for interior access. Palletboxes offer the strength and rugged durability demanded in todays material handling and distribution systems. Custom protective dunnage is available for all ORBIS BulkPak containers. These plastic containers are fully recyclable at the end of their service life. (All dimensions and specifications are approximate. Performance characteristics are based on uniform static loads and may be affected by distribution of load, handling methods, number and type of access doors and temperatures beyond the range of 0 to 120 degrees Fahrenheit.)

BENEFITS

- 40" x 48" x 25" footprint
- Structural-foam molded in high-density polyethylene
- Container capacity: 2,000 lbs
- Access Doors: 0 doors or 2 doors on the long side
- Base: All-plastic picture frame bottom
- Deck: Solid deck with drain holes
- Sidewalls: Solid
- Popular applications: Automotive components, bearings, hardware, industrial equipment, metal parts, plastics and rubber parts, resin and powder and tools
