

DESTONER – GIESEN COFFEE ROASTERS

COFFEE DESTONER

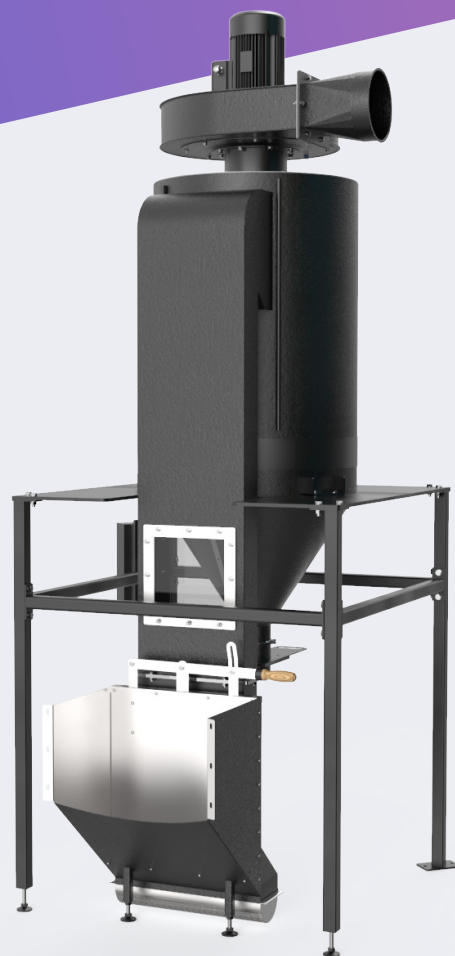

OW SERIES - OW20 / OW50 / OW120

CONTROL YOUR QUALITY

Add an extra quality check to your roasting process by using our destoner. After roasting your beans you put them through the Giesen destoner which removes all the foreign objects and leave you with nothing but coffee beans. Reduce the risk of damaging to your grinder. All Giesen Destoners are available with weighing cells and are fully customizable to match your brand.

OW20, OW50 and OW120

The OW20, OW50 and OW120 Giesen Destoners can be used in combination with the W6A / W6E, W15A, W30A, W45A and W60A machines.
