

PA-70-LGR 125-Pints LGR DEHUMIDIFIER

77/125 PINTS

The PURAERO PA-70-LGR compact dehumidifier can remove up to 77 pints per day at AHAM (80°F, 60% RH), and up to 125 pints per day in a saturated room through its advanced LGR technology. Its energy-efficient motor produces up to 410 CFM airflow capacity while drawing 8.0A of electricity. The PA-70-LGR combines all the great features of a regular-sized LGR dehumidifier unit! Portable and stackable that conveniently fits on your truck and maneuvers easily around the job site. Included with an easy-to-read digital display to allow contractors to operate the machine comfortably.

SPECIFICATIONS
