

Point of Purchase Partitions

Point of Purchase Partitions

This point of purchase product is a functional use of space for retailers to direct customers while also showcasing merchandise. The posts create a traffic flow, and the panel makes it easy to post product for people to look at when waiting in line. Steel weighted posts and rails make this product sturdy and heavy duty. Assembling this product is made simple with mechanical fasteners to the panel to the posts. The standard starter kit comes with two posts and one panel, but more can be added to accommodate any size line needed.

Features:

- Panels come 8ft. long - can customize size
- Can attach museum rails along top for advertising
- Steel post and rails
- Come in black
