

6FT/8FT PLASTIC SLATS BENCH WITH CAST ALUMINUM LEG

Plaza Slats Resin Bench is a high-performance outdoor seating solution designed specifically for high-traffic public spaces. It features a powder-coated aluminum frame with excellent rust and corrosion resistance, paired with smooth, contoured resin slats for the seat and backrest that ergonomically conform to the human body, providing comfortable support for extended sitting or leaning. The resin material is highly weather-resistant and UV-resistant, requiring none of the maintenance that wood products demand, staying like new for decades with minimal upkeep costs. The product comes complete with all necessary mounting hardware for quick and secure ground fixation, ensuring safety and theft prevention.

This series is available in two lengths: 72 inches and 96 inches. The 96-inch model features an additional center armrest, which not only provides more defined seating zones and extra support but also effectively deters lying down, facilitating orderly management in public spaces.

Plaza Slats Resin Bench is an ideal choice for parks, campuses, hospitals, public transit hubs, commercial pedestrian streets, and various municipal public spaces.

FEATURES:

- > Virtually maintenance-free - never needs sealing, painting, or staining like wood.
- > Rust-resistant powder coated aluminum frame ensures years of reliable outdoor service.
- > Extra-wide 19-1/2" seat with 16" seat height provides ample comfort for users of all sizes.
- > All necessary mounting hardware included for fast, secure ground anchoring.
- > Available in 72" and 96" sizes to suit various spatial needs.
- > The 96" model's center armrest adds seating zones while discouraging lying-down.
