Our Service Value Series (SVS) sets the standard for everyday dinnerware with reliable strength, smart design, and refined style. Made with the highest alumina content in the commodity market, each piece offers exceptional durability to meet the toughest demands of daily service. Engineered with optimal thickness, the collection maintains a refined look without unnecessary weight—easy to carry, easy to stack. Double-fired and finished with a diamond polish foot, SVS resists metal marking and retains its clean appearance over time. Don't forget to check out our complementary SVS Flatware and Glassware Collections that will elevate the tabletop and designed to withstand high-volume, everyday service.
