Notes & Details

This 3/4" swivel connector from Regency is the perfect way to extend the life of your gas connector! Ideal for applications where the attached equipment will be mounted on casters and moved regularly for cleaning and maintenance, this connector rotates as the equipment moves, reducing stress on the hose connection points while also reducing kinking and twisting. Use 1 at each end of the hose to maximize your range of motion and make moving equipment easy. It has 3/4" fittings.
