Features

- For use with compatible Regency hose reels (sold separately)
- Enables simple and easy rinsing
- 1/2" female NPT inlet and 3/4" female NPT inlet adapter
- 5 GPM flow rate
- Durable, ergonomic handle

Notes & Details

Add versatility to your hose reel with this Regency spray nozzle. This helpful tool attaches to the end of your hose to provide a quicker and easier way to rinse items. It features an impressive rate of 5 GPM for efficient water flow.

This unit can be used as an additional accessory for your hose, or as a direct replacement for the one that came standard with a Regency hose reel kit. The spray valve has a 1/2" female NPT inlet and the adapter has a 3/4" female NPT inlet. This tool should not be used with food service pre-rinse faucets due to the high GPM.
