

Regency 60" Stationary Gas Connector Hose - 3/4"

#600GHS3460

Technical Data

Length	60 Inches
Diameter	3/4 Inch
Maximum PSI	0.5 PSI
Temperature Rating	-40 - 150 Degrees F
Type	Stationary Gas Hoses
Usage	Indoor

Features

- 60" long hose; 3/4" diameter
- For use with stationary equipment
- Flexible stainless steel corrugated tube
- Black PVC coating prevents grease buildup

Certifications

Notes & Details

Keep your gas equipment working safely and efficiently with this 60" stationary gas connector hose from Regency. Having a good quality gas hose and the right hose for your application can mean the difference between a kitchen that keeps up with orders and a major safety hazard, so it's important to replace a damaged hose immediately and to also consider how you will be using your equipment before choosing a new hose.

This gas hose is 60" long with a 3/4" diameter and is intended for applications where the equipment is curb-mounted or mounted on stationary legs and will not be moved on a regular basis for cleaning and maintenance. It is made from stainless steel corrugated tubing to provide strength and flexibility, and a PVC coating seals the hose and helps to keep grease and dirt from accumulating on it.
