Notes & Details

Perfect for busy ice cream shops, this Regency dipper well set comes with a drop-in bowl and a faucet, which install easily into your countertop and will help prevent cross-contamination and flavor transfer when rinsing flatware, ice cream scoops, and more! The faucet is made from attractive and durable stainless steel, and it has a 2 1/4" long spout and 1 7/8" clearance from the faucet outlet to the flange.

The stainless steel dipper well bowl has a wide opening to easily hold your ice cream scoops without obstructing water flow. The included inner bowl and 4 1/4" long copper pipe allow this unit to handle overflow and drainage with ease. It requires a 6" cutout for installation and can be used in countertops up to 11/16" thick (or 13/16" without washer).
