Notes & Details

This Regency 15" double-jointed swing spout is perfect for use as a replacement, or you can use it to change the style of an existing faucet. It measures 15" long and has a 2 GPM aerator to provide a gentle flow pattern with minimal splashing. Since it features a double-jointed swing design, you can easily fold it out of the way when washing larger cooking vessels. It attaches to the faucet base with a 1/2" NPS connection. It is designed for use on Regency faucets.
