Notes & Details

This Regency wall mount faucet with 8" swing spout is an excellent choice when you need a reliable, affordable water fixture for your facility! Designed to be easy to install and easy to maintain, it's easy to see why Regency faucets are a great solution for any business. Thanks to an 8" long swing spout, this faucet delivers water exactly where you need it, and the moveable design lets you adjust it to fill multi-compartment sinks or maneuver around larger cooking vessels.

Water exits the faucet through a 2 GPM aerator, which creates a soft flow pattern with minimal splashing. The faucet installs on your wall or sink backsplash on a pair of 8" centers and connects to the facility water lines with a set of 1/2" NPT inlets. The faucet body is made from chrome-plated brass that complements nearly any design aesthetic, and the water flow is controlled by a pair of simple lever handles. An installation kit is required for setup (sold separately).
