- Contains cold side ceramic cartridge and faucet handle
- Compatible with 600FD4, 600FD8, and 600FW4 series faucets

Certifications

NSF/ANSI 61 & 372

CSA, US and Canada

NSF Listed

Notes & Details

This Regency cold faucet body cartridge with handle is a direct replacement for the one that came standard with your select faucet. This faucet body comes with everything you need to quickly fix a cold side handle in a convenient cartridge design that takes less time to replace than fixing individual components. It's compatible with 600FD4, 600FD8, and 600FW4 series faucets.

This unit includes a ceramic cartridge, which provides a much lower fail rate than the compression cartridges widely used in the industry. In this design, 2 ceramic discs fit together to create a watertight seal when closed. This removes the need for a rubber seat washer, which is one of the most frequently replaced parts on a faucet. It also includes a replacement handle with blue cold index.
