Notes & Details

This Regency hands free faucet wand allows you to easily and conveniently activate your faucet's water flow without having to grasp standard handles, making it perfect for hand sinks where preventing cross-contamination and maintaining sanitary conditions is of utmost importance! You could also use this hands free faucet wand at sinks where you frequently fill containers with water for cleaning. It connects directly onto the end of your faucet's nozzle and has 13/16"-24 female and 15/16"-27 male adapters.
