Notes & Details

This Regency 2.5 gallon electric water heater is a direct replacement for the one that came with your portable hand sink cart. Your hand sink cart relies on the heater to provide hot water for comfortable, safe hand washing, so it's a good idea to keep a spare on-hand to minimize downtime and make quick repairs. It has a 2.5 gallon tank capacity and connects with a 3/4" garden hose thread water connection. It requires a 120V electrical connection.
