Certifications

## Notes & Details

This Regency 28 1/2" reinforced PVC hose is a great addition to your janitorial closet or maintenance room. It features a 3/4" garden hose inlet with a plain end outlet so you can use it to easily dilute chemicals in mop buckets or cleaner bottles. It's perfect for attaching to your service or sill faucet for a variety of commercial kitchen and janitorial applications. Make the job easier for your cleaning staff with this mop sink hose. Since it lets the cleaning crew simply roll a bucket up to the sink and use the hose to fill it, there is no need to lift the bucket up to the faucet.

 **WARNING:** This product can expose you to chemicals including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).
