- For use with hose reels (sold separately)
- Enables quick and easy rinsing of items
- Provides a steady, controlled flow
- Flow rate of 5 GPM

Notes & Details

Add versatility to your hose reel with this Regency 5 GPM heavy-duty front trigger water gun! This helpful tool attaches onto the end of your hose to provide a quicker and easier way to rinse items, and it has a quick disconnect feature to easily remove and attach as needed. It provides a steady, controlled flow of water with a rate of 5 GPM. To withstand heavy-duty usage, it features a durable blue rubber cover.

This unit includes a trigger lock to ensure easy use during extended spray sessions. It can be used as an additional accessory for your hose, or as a direct replacement for the one that came standard with your hose reel kit. The spray valve has a 1/2" female NPT inlet and the adapter has a 3/8" female NPT inlet. This tool should not be used with foodservice pre-rinse faucets due to the high GPM.
