Notes & Details

Easily display and access merchandise in your restaurant, bakery, cafe, convenience store, or grocery store with this Regency 18" x 60" NSF black epoxy slanted wire shelf. With its slanted design, this shelf is made to allow your staff or customers to easily see the products you are displaying. Plus, it makes it easy for customer to access items, too! Since this shelf has a black epoxy finish, it is great for retail applications where a darker finish provides a professional appearance.

Each shelf has a weight capacity of up to 400 lb. of evenly distributed weight, so you can use it for displaying lightweight boxes of pastries or heavier items like cans of ingredients. This shelf may be added to existing shelving units that you already have and it also fits on any Regency shelving posts if you wish to create a customized shelving system. When used as part of a shelving unit, this shelf is adjustable so you can accommodate different sized products.
