Notes & Details

As part of the Regency Space Solutions' wire shelving collection, this 18" x 24" chrome wire shelf is great for use in dry storage and heated environments. It's made of a durable, chrome plated metal. Plus, its high-quality design is commercial grade and delivers the reliable performance every business expects and needs.

When combined with additional chrome shelves, posts, and accessories (sold separately), this chrome wire shelving is capable of holding up to an impressive 600 lb. of evenly distributed weight. This shelf is fully adjustable to accommodate products or equipment of varying shapes and sizes. The open design coupled with the ability to move it to different heights facilitates ventilation and maximizes air flow between and around products.

This shelf comes with 4 pairs of split sleeves for quick and easy setup and installation. To assemble, simply snap 2 split sleeves around each post at one of the incrementally notched lines. After you snap the split sleeves on, fit the shelf down over each post to hold it in place.
