Notes & Details

Keep your storage area organized with the Regency 18" NSF chrome triangle 4-shelf kit with 74" posts! This kit includes (4) 18" wire shelves and (3) 74" posts, which allows you to create a convenient storage solution for the corner of your janitorial closet, warehouse, or stock room. Its durable chrome construction can stand up to heavy loads.

With an open wire design, this shelving system facilitates proper air flow while remaining incredibly sturdy and durable. Whether you need to store bulk ingredients, prep tools, cleaning supplies, or even small industrial components, these spacious shelves give you plenty of room to store all of your essential supplies. They're adjustable, too! Since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

A set of 3 split sleeves is provided for each shelf. Likewise, a foot is provided for each post and must be used for proper installation. The shelving unit requires assembly.
