Notes & Details

Store and display items in your grocery store, retail store, or hardware store using this Regency 24" x 24" chrome stationary 4 basket retail storage display stand! This convenient basket display provides ample storage for bulky items. It has baskets with slanted sides to show off your product better than traditional baskets, making your product more inviting to grab. This storage basket display can also be used to store impulse items, overstock items for quick selling, or low dollar items.

This unit features 4 storage display baskets with a drop front and sloped sides to help prevent your products from falling out. With an open wire design, these shelves ensure proper air flow around your stored supplies, products, or ingredients. The shelves are also adjustable, since the posts are marked in 1" increments and use a split sleeve system of assembly. This makes the shelves easy to move higher or lower along the posts. Each shelf can hold up to an impressive 300 lb. of evenly distributed weight, making it the perfect place for storing bulk ingredients and heavy supplies.

Thanks to the attached leveling foot, each of this kit's 4 included posts can easily be adjusted to accommodate uneven surfaces. These caps also prevent damage and marking to your floors. With its high-quality, commercial grade design, this unit is sure to deliver the reliable performance every business expects and needs!
